## FLAT CO-EXTRUDED MULTILAYER PVC SHEETS

KLAR flat co-extruded multilayer PVC sheets are designed for applications where visual appeal, strength, and durability truly make a difference. They are an ideal solution for brands seeking to stand out in retail environments and exhibition spaces.

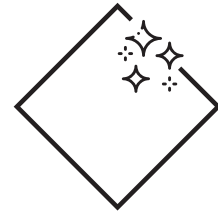

**Smoother  
better print  
quality**

YEARS

**More durable  
longer  
lifespan**

**Better finish  
premium  
look**

## KEY BENEFITS

1

### Maximum visual impact

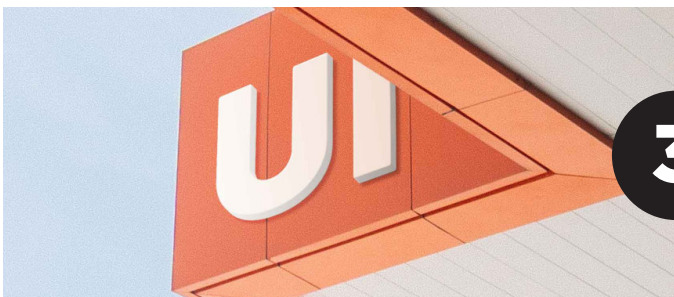

- Ultra-smooth surface for flawless graphics
- Brighter, more vibrant colors thanks to a high white point
- Excellent ink adhesion for long-lasting prints

2

### Structure that supports your brand

- High rigidity for stable displays
- Clean, sharp shapes that hold over time
- Ideal for freestanding structures

3

### Built to last

- Longer lifespan
- Engineered for long-term performance
- Reduced risk of warping over time

# ADVERTISING APPLICATIONS

## Retail & point of sale

- Promotional displays
- Product showcases
- Lightweight retail furniture

## Exhibitions & trade shows

- Graphic walls
- Backlit panels

## Visual Communication

- Indoor and outdoor signage
- Large-format graphics

## Dimensions:

	Thickness (In)	Width (In)	Colors
<b>TK Zero</b>	0.060 / 0.118 / 0.197	48/59	black, white, blue, red, green

## Properties:

Properties:	Unit	<b>TK Zero</b>
Specific weight	lib/sqft	0.727
Radius of curvature	ft	20
Thermal resistance	m2K/W	0.0129
Thermal productivity	W/m_k	0.155
Temperature range	°F	14 - 113
Maximum impact resistance	J	2

Properties shown correspond to a 2 mm thickness
